You like to feel that I will float away someday
I cried the hundredth time things never came my way
But I will find (x2)

Who's going to shake the corners of my mind today
What's in those dusty rooms I fear for in every way
But I will find (x2)

It's not *to* beautiful me now*
[should this be:]
[it's not too beautiful me now?]

Everytime I look to find I....

You like to feel that I will float away someday
I cried the hundredth time things never came my way
But I will find (x2)

Who's going to shake the corners of my mind today
What's in those dusty rooms I fear for in every way
But I will find (x2)

It's not *to* beautiful me now*
[should this be:]
[it's not too beautiful me now?]

**Everytime I lose my mind I*
Everytime I look to find I....
