When that time rolls around and I gotta leave town and
I know it's hard on
Our
Relationship but I gotta do this for me n you, hoping
that my dreams will
All come
True, and I know it feels like were falling apart and your
always afraid
I'm gonna
Break your heart, but boy you must know I gotta thing
for you, and nothing
Will
Stop me from saying I do

In the future we will always be together always just you
and me, no matter
What
People say were gonna buy a house and someday raise
a family, in the mean
Time
I will always sing accomplishing my every dream,
gonna be just you n me

Just me n you, gotta be, gotta be just me n you, Just you
n me, me n you
No matter what may be, you will always be my boo
For all eternity, gonna be just me n you
I want the world see, a love that's oh so true

Working part-time at Mike N Bees, first locked eyes I
fell to my knees
Then we started dating anticipating, true love that
would come eventually
Everyday we spend together is so much fun, and I
know in my heart that you

Are the one, you fulfill all my fantasies, no place I'd
rather be, without
You cause
Our love's so true

In the future we will always be together always just you
and me, no matter
What
People say were gonna buy a house and someday raise
a family, in the mean
Time
I will always sing accomplishing my every dream,
gonna be just you n me

Just me n you, gotta be, gotta be just me n you, Just you
n me, me n you
No matter what may be, you will always be my boo
For all eternity, gonna be just me n you
I want the world see, a love that's oh so true

Mmmm baby, it's clear to see, how you make, how you
make me feel
God has chosen you for me, gotta be you n me
together always

Just me n you, gotta be, gotta be just me n you, Just you
n me, me n you
No matter what may be, you will always be my boo
For all eternity, gonna be just me n you
I want the world see, a love that's oh so true

Just me n you, gotta be, gotta be just me n you, Just you
n me, me n you...
