I'm wandering down the streets  
I'm following a man  
The man who'll forfill my needs  
Cos he's gonna die tonight

I kill to live  
I live to kill  
I like to hear you scream  
When there's nowhere you can run

I'm just following my orders  
I can't escape from them  
They go round and round in my head  
They won't stop 'till someone's dead

I kill to live  
I live to kill  
I like to hear you scream  
When there's nowhere you can run

Death  
Murder  
Kill  
Kill  
Kill

I kill to live  
I live to kill  
I like to hear you scream  
When there's nowhere you can run
