Total darkness
Only the light of a cigarette
Total silence
Just the faint sound of 'Hunger strike'
Inner peace

Sunday night
No one's around
In the distance I can hear
People having fun
Let them be

Two headlights
Coming towards me
Disturb my heaven
But not for long
Cause you're still here

I need no more
This is all I want
Quietness
And peace

Footsteps
Two people laughin gat each other
I wish you were here
Here with me
but you ain't

I need no more
This is all I want
Quietness
And peace

Inner peace
