Start is the end
More or less
Do you brake for the bend?
More or less

The Milky Way results from the crowding
Of extremely faint stars

Friend is a fruit
More or less
Love it but you lost a tooth
More or less

The Milky Way results from the crowding
Of extremely faint stars

Can it be, can it be?
It's not impossible, I know
'Cause I led/let it here
Now it seems to make more sense
And I know I'm round the bend (?)

Can you break through the final stage?
More or less
Do you sing to control your rage?
More or less

The Milky Way results from the crowding
Of extremely faint stars

Can it be, can it be?
It's not impossible, I know
'Cause I led/let it here
Now it seems to make more sense
And I know I'm round the bend (?)
