### "Troubles"

Visit "[Troubles](#)" on MotoLyrics.com

It's about time that we fell in love  
You know that I've been trying  
It's about time that we had a laugh  
You know that I've been crying

Too many people, too many troubles  
Too many mouths are lying

If everybody laughed for just one day  
You know that'd make me happy

Too many troubles, too many troubles  
Don't know how we live so long  
Too many troubles, too many troubles  
It's time for us to live and laugh and laugh and laugh

It's about time that I said Hello to all those lonely  
people  
When I was at the back who could never talk back  
through all the tears and sadness

You never really know who's there beside you  
Who will be your comfort  
If everybody laughed for just one day you know that'd  
make you happy

Too many troubles, too many troubles  
Don't know how we live so long  
Too many troubles, too many troubles  
It's time for us to live and laugh and laugh and laugh
