Whatever you want I'm here for you, whatever you
need I got that too
All I ask is this from you, that your love is always true

Cuz your the one that's never let me down, show me
true love and stayed around
Girl I wrote this song for you, to let you know I love you

Everybody needs somebody to love and in my book
baby boy you're number one
Matter fact you're the only one, like I'm addicted and
your my drug,
I can't lie when it comes to these things you made a
promise and you always say
That we gon have a little family and stay together to
the very last day

Whatever you want I'm here for you, whatever you
need I got that too
All I ask is this from you, that your love is always true

Cuz your the one that's never let me down, show me
true love and stayed around
Girl I wrote this song for you, to let you know I love you

So why don't we make a pact straight to the future
never lookn back
All my days are spent with you but it's okay because
our love is true
You got my heart wrapped up in your palm you lift me
up on a pedastal with your arms
You make me feel so good inside, the number one
person to whom I confide in,
Our love is great you make me sane, I'll do whateva it
takes to make it all the way baby,
I love you more then anything in this world

Whatever you want I'm here for you, whatever you
need I got that too
All I ask is this from you that your love is always true

Cuz your the one that's never let me down, show me
true love and stayed around
Girl I wrote this song for you, to let you know I love you
