Come hear the voices in my head
They say you wanna hurt me
And they want you dead
It's scraping the bottom of the barrel of life
There's a million different voices
And there all synchronized
Into one real/little army that will kill you all
Injecting my brain with adrenaline
They're marching They're squirming/Screaming
They wanna get out
There armed to the teeth
It's a Blut Royale!

Come to me

Come hear the voices in my head
They say you wanna hurt me
And they want you dead
Come hear the voices in my head
They want you dead!
It's a Blut Royale [x4]
It's a Blut Royale
It's a Blut Royale
It's a Blut Royale

Come hear the voices in my head
Come hear the voices in my head
Come hear the voices in my head

Come hear the voices in my head
They say you wanna hurt me
And they want you dead
Come hear the voices in my head
They want you dead
It's a Blut Royale! [x4]
