Truth, pride, pleasure, pain,  
No use sitting silent  
Lies, loss, arrogance, gain,  
Slit outside his throat

Deception from the ones he thought he knew best  
Unaware that he now is all alone  
They picked apart his life limb from limb  
Reattach and move on

Make a statement loud and clear so all can hear  
Maybe it is time to erase all your fear  
One more thing, just one more is get right to it  
Show us who you are

Don't try to play it off like we are friends now  
There is no more peace and kindness  
I see the time has passed between us  
I have strength to move on

Make a statement loud and clear so all can hear  
Maybe it is time to erase all your fear  
One more thing just one more is get right to it  
Show us who you are

No pain, no gain, you're wrong, I'm strong  
You played a lie, when we were eye to eye  
You're all the same, it's not a game

Make a statement loud and clear so all can hear  
Maybe it is time to erase all your fear  
One more thing just one more is get right to it  
Show us who you are
