Feel it inside cause they will not tell you
The stories that didn't hit the page
Open your eyes, open your eyes
Time has just begun

Right or wrong, the choice is oh so strong
Accept the fact, that you can't take it
The world beyond when you are carved from stone
But not alone, it's your future...
No escape...
It is your fate. Don't be late...

Feel it inside cause they will not tell you
The stories that didn't hit the page
Open your eyes, open your eyes
Time has just begun

It tastes so good
Better than what I thought that it would be
My sanctuary
No stress, no pain within my chest and I can breathe
So exciting...
I can't explain, it's better this way
No shame

Feel it inside cause they will not tell you
The stories that didn't hit the page
Open your eyes, open your eyes
Time has just begun

This time was just as wonderful, and I thought I was overlooked
I gazed into the brightest eyes, with no blame or sacrifice
Go on sing the same old song, cause I know it won't be too long
Days pass, my time is here at last, so go on
Take me there...

Feel it inside cause they will not tell you
The stories that didn't hit the page
Open your eyes, open your eyes

Time has just begun
