Build ramps, not bombs!  
Tear down the factories that create the weapons,  
replace them with halfpipes  
And crazy sick sessions  
Build ramps, not bombs!  
Tired of living, in your world of shit,  
I'd rather thrash, do something fun with it!  
Build ramps, not bombs!  
Doing what it takes to get thru my fucking day,  
Pave over and build  
On top of what makes this world decay,  
History left a playground of  
Concrete for us to shred,  
So grab your fucking board and lets have a blast!  
Build ramps, not bombs!
