There's trouble in the big apple and no ones safe they  
live in fear  
Crime rates up in the city according to april o'neal  
What we need are heroes to protect us from bad guys  
Sure enough we find these teens the reptilian kind  
Teenage mutant ninja turtles  
Heroes in a half shell it's simply plan to see  
Teenage mutant ninja turtles  
Shell shock to your system it will leave you digging  
green  
Shredders on the loss again he's out to get our turtle  
friends  
He sends the foot to fight his war because he wants  
revenge  
But they're no match for heroes with their martial arts  
tactics  
No matter what he throws at them they always fight  
and win  
Leonardo is ready to go!  
Donatello is behind the wheel!  
Raphael wants to kick some ass!  
Michelangelo wants his pizza snack!
