Fast, For, Ever!

The timings off the feedback blasts,

And I just wanna play it fast, I'm gonna

Have a good time and enjoy it while it fucking lasts
cuz...

Were not here to impress,

We might need some more practice, u can criticize

Us all u want, well be at a show if u need us

Because this is what's important to me,

Playing these songs and living happy,

With energy, communicate,

You don't have to listen to what I say cuz...

Were not here to impress,

We might need some more practice, you can criticize

Us all u want, well be at a show if u need us!

When were thru, it's not done!

Were just passing thru, there's more to come!
