Makes me so mad, all that shit you pulled
Just Another Enemy
Attempts to be a good friend gets me fucking used
Just Another Enemy

Stabbed in the back [x3]
I see what you lack

Gave you all this help when you were out and broke
Just Another Enemy
Laugh behind my back like it's a fucking joke
Just Another Enemy

Stabbed in the back [x3]
I see what you lack

I thought we were friends
Obviously not
Taken for granted
And I hope you fucking rot
Years pass by and you got nothing left
And in the end you'll deserve what you get

Just Another Enemy
Attempts to be a good friend gets me fucking used
Just Another Enemy

I'm tired of talking this song's about you...
