Dealing with this shit
Everyday I'm breaking out
I'm getting away,
Grab your board,
Into the van to the show
Were gonna have some fun,
Jumping in, playing fast,
Circle pits, and were knockin' 'em back,
Come on in and don't be shy,
We got your fingers in the air
And were pointing 'em high!
So... let's have some fun!
Making noise!
Let's have some fun!
Go destroy!
Pack up the gear, to the next show,
Set up our equipment it's time to go,
Better think fast, better fucking run,
By the time your ready we're already done,
Play it sloppy, play it loud,
Play it fast and fucking proud,
Not gonna stop until were done,
It's "get up and go!" all over again,
So... let's have some fun!
Making noise!
Let's have some fun!
Go destroy!
Ten years later will you remember us?
We don't care we don't give a fuck,
Never too old, and never too young,
That's why were here,
Because it's fun!
