I made it threw the night and the only one left alive  
I cut and chopped and fought my way cause I wanted  
to survive  
The dead were fucking ticked and they couldn't let it  
go  
They're up again, they want revenge, you wanna fight  
lets go  
Ok now I'm pissed, evil dead don't fuck with this  
I'll rip their eyes out from their sockets and stick them  
in my front coat pocket  
Oh yeah come to think, my hmo won't cover this  
You better home I fucking die cause now I'm out for  
every dime  
It's a battle royal, no holds bar, and the blows are  
hitting low  
We fight and fight, and fight, fight, fight, the damage  
starts to show  
Then the dead possessed my hand so I sawed the  
fucker off  
I hope you know the games over and I'll beat you with  
my stub  
Run - I'll cut your body into bits  
Hide - I'll make you dead a second time  
Run - I'll even give you a head start  
Hide - too late bud your ass is mine
