"Skate The Day Away"

It's one o'clock, I just woke up, my head is in a vice
I look outside, the weather's nice, how can I pass the
time
I'm thinking hard, nothing so far, the day is almost
threw
The bulb went on and then I knew the one thing I must
do
Skate the day away
I grind the curb and trick the box and skate away the
day
I ollie stones and do great stuff and face plant on the
way
If you ask and ask just once about why I skate today
It's simply so, I just don't know, "it's fine with me" I'll
say
Grab your board and go! skate the day!
Grab your board!
Skate the day!
