Seems like it was over, right after it began,
I had it fucking figured out
And now I'm pounding sand
Wheelbite! It always never seems to fail
Wheelbite! Drag my feet thru the gravel
What happened? Another dead end?
Torn between my options and the Walls are closing in
Wheelbite! It always never seems to fail
Wheelbite! Drag my feet thru the gravel
I can't seem to get out of this, make me want to kill
Stuck here in this don't move my minds like a padded
cell
Can't get ahead stuck here fuck this I'm running out of
time
I can't seem to get out of this and this life is mine!
This life is mine!
If this is a test, and only a test,
I know the fucking answers but I can't
Fill out the rest, and maybe,
I complain a bit too much, but I'm not
