True and only God
True and only God You are
High and lifted up
High and lifted up You are

God You saved my soul

You are more than a picture in my head
More than a feeling that I feel
God You're everything to me
My Hero

God I'm giving You all my future plans
Laying my life into Your hands
God You're everything to me
My Hero

Sing in one accord
Sing in one accord to You
For You have risen Lord
You have risen Lord
You rose from death

Angels celebrate as I walk through those gates
Heaven comes to meet me
Demons tremble at the sound of Your name
For everything You are...
Everything You are
