[together]

C.f. digital bust critical

Lighters get burned on a diamond stylus

Four elements control the soundclash

Coflow responds to the crowd's mileage

[bigg jus]

The nitrous illustrator surveyor terrorizer

Hit end to end burners plus multiple insiders

Sublevel providers or simple verbalizer

The most humble student sniper, destroy to amplify

The sentinel who protects the portal dimensional

hologram

Cover all chapters of b-boy visuals

Take it back to two a.m. fill in the 3d outline in the park

A year later drug raiders set off black and silver sparks

Somehow it just changed the culture ripped the whole movement apart

From it's origins, begin that gave the four elements it's start

What remains, a crew trying to rebuild in vain

To the local squad, trying to bring the fame back to they building

I'm in the finals, three years consecutive for soundkilling

Pooh butt analyzers, the weapon mystifier

Who wanna come test the king benevolent

Who turn the state of the art, into nuttin or irrelevant

Who fuck the world whirlwind myriad of vaporous hybrids, it's known

To seep through these brick walls n shit, close your eyelids

In the field of depth perception

I annihilate kids with no less than texas tittie twisters

Skull nuggies, purple nurples, methamphetamine

Break the land speed record dip out leave a crop circle

Mr. sluggo top-notch competitor behaviour injector invader

Crush competition like a overturned blazer

Our greatest work ever, overthrow the stock exchange with lazars

Escape flying through the number 4 tunnel, too low to  
be detected by radar  
Grand concourse mixer of flavour breast elixir  
We screwface competition with ruthie cola mixture  
I'm way above, shine on crews like a street lamp fixture

[together]

Super duty tough words, all vision lost rhymin  
B-boys hold down the function  
Rock steadily for more than just dough  
"dance to the rhythm and rhyme of coflow" (repeat 5x)

[big juss]

A hot wire like a third rail is live (repeat 3x)  
From here to oblivion, I obliterate

[el producto]

Yo, I cut most meticulous with a similar interest  
King of pen and sing to a metronome without an  
influence  
Shot burner off-kilter bust shit at random  
Like civil war muskets or add kids throwin tantrums  
Out out the damn spot with phantom power rebel bunch  
Using the populace like fed fed the meat to public  
school lunches  
Sad to say I'm the matrix with the code for smallpox  
rapist  
Out of all shots mine are worn from hit 'n' runs, caught  
'em mixtapeless  
Straight from limbo where the most favourite dish is  
faces  
Marching like dimes or orangemen through belfast  
Manimal hybrids be combination, then beatbox  
Til the tastebuds on our tongues are smooth and  
shapeless  
Dodging thought police this patient zero the folk hero  
Clepto steal the spotlight before b-boys turn  
complacent  
Specialize in neuter services and theft of game  
systems  
The crew detaches expands and credits them towards  
purchases  
Wisdom with a bad touch, incision pain plus  
That botched the operation and denied insurance claim  
from it  
Overfiendish, twenty cock to shoot out fuck your mind  
Before that morning cup of ovaltine shit  
El producto, c.f. born to break shit down and replace it  
with  
Fortified vitamins that you can lick right off the vinyl  
Little leaguer, my phonics is on some clearly ironic shit

Like hittin pick six on the day of the apocalypse  
Took the hard road to blaze a trail like yeast infection  
In urethras, just to match crabs try to bite my style, fail  
Diss me on the internet like picket line crossin  
teamsters  
Scabs that's realy down with hip hop only if convenient,  
kill him!!!

The rhyme sucks  
The delivery sucks  
This fucking move, terrible, very old  
Look at me I'm going to dance for you now, look

"dance to the rhythm and rhyme of coflow" (repeat 4x)

[big juss]

A hot one among the third rail is live (repeat 3x)  
From here to oblivion, I obliterate

"dance to the rhythm and rhyme of coflow" (cut and  
scratched)
