To anticon rapper sole but hasn't officially been released

El-p: "straight up if it wasn't for cats like me
For real and I am not bullshittin
If it wasn't for cats like me you wouldn't be in the rec
In the door and I know that's true now
knowwhatmsayin?
Because now you're really in some of it"

Sole: "where's len? I told len that fuckin; I sai {slight
pause}
Quote, that I said, I love company flow
I don't wanna be against you guys i-i-i quote
Quote, unquote I said, I wanna be down - you know;
Like I said I don't want beef with you guys
Youknowiamlikedude; like fuckin
This whole shit is bananas, y'know"

El-p: "like you're gonna make it by dissing me
You know the record that got coflow scared,
knowwhatmsayin? ?
It's like do I sound scared? ? "

Sole: "no I don't think you sound very scared"

Some cats know us but this one don't
I oughta pierce this fuckin phallus through your rookie
ass throat
Yo duke, don't step to me until you're ripened fruit
I'm loopy from the invitations from funeral glue
Stone poems dissolve combatants via shards through
56k high speed
Still blitzed like relaxed I'll call geisha felatio deeds
Like fertilizer bombs packed in air tower compartment
docks
Sticky fuck revolution shot - send all complaints to
rupert murdoch
I'll black out in the mug of suburbanites with little
stinger's crew
You volunteer for the draft stupid--that's on you!!

On some upper middle class romantic notion
So the mortar scraps'll fly cry gates section 8 escape
like klinger do
The demented happy face bruised back for pussycrew
packin
Rockin clam diggers with cut knees in hepatitis puddles
- no vaccine
Plus 99% are down but you still give respect for
Silently questionin your direction - like amistad
passenger section
Gilbert grape against magneto odds;
Ultimate break 5 versus your needle pops;
Davey jones versus goliath;
I'm ed sullivan beatles crowd response
I slowed it down - try to download this gig to formatted
floppy disk
While heads bop like epileptics sucking my dick to
some off-beat shit

Sole: "i l-l-l-l-l-l-love company flow"
::scratch:: "y-y-you faggot"

This spoiled brat little young saga got a mommy
bought my sampler tapes
(sole: "i wanna be down")
Make sure every one sheet snippet tape flyer sticker
and t-shirt
Got a representation of my name and face
I rock beats that tina yothers morning sickness without
makeup ugly dusty
Fucked up four track dirty ass crack pirate radio
readiness
Okay fella; I own my masters, lyrics, merchandise
Mic, turntables, style psychosis pain and penis
Deranged cadence kills syllable uv needles
Makin gangsters in the crowd throw bottles at my
people
We dip on life cycles few data crisp since
Custom jeep dapper dan era in 3 fat goose
Swingin discs of tron to disembowel your village elder
Fuckin sick isn't it? bucket my piss while you're at it kiss
the dog dick
Try to act monstrous but just a beanie baby after my
profit
That don't do much for hip hop - that isn't respect it's
cockfondlin
In eighty-nine we called it tip-doggin; but you ain't know
that rookie
Don't ever try to front like you know me or my people
By the way vordul did I bite?

Vordul: "yea right!!--that's fantasy lie snake trife"

Sole: "like fuckin - this whole shit is bananas"

You little lying muthafucka you know you kiss my ass
And then you try to ::scratch:: "change up the past"
Who fell into their own hari kari kit when they lied to
themselves

Self abuse by selling lies self destructive

I am captain kirk, spock and lieutenant uhura on the
away team

You're henson lebowitz - the sacrificial lamb for the
episode

You beamed to the wrong planet this time

Wth a hot pink phaser and one line

Before getting morphed to faggot dust for not knowing
our status

Automatic and absolutely the poisonous shit-licking
one cyber reject

New england rich boy soon to catch a bay area eject

Marionette pussy non-veteran

I got more friends than you where you live

(menopause/ men all pause) when I stop that flow of
estrogen

You wanna be on the cutting edge--sliced up

Emotions knifed--life sucks

Feeling dejected when frustration is misdirected in
official election

Conjections on top of blaming misinformation textures

So inane--i cause colon blow pain

You have an obsession respect it

From now on you're immortalized playin yourself on my
record

Congratu-fuckin-lations; isn't that what you wanted--
idiot!!

There's more than a little difference between yours
and mines existence

This is my ride; and your not commadering it

The only thing advanced about your music

Is that you need a computer to hear it

This year your independent,

Last year you was on some keep it real shit, right?

The last year before that you discovered hip-hop

And you immediately became an internet genius

Fecetious pseudo-intellectualism can't contest wisdom

I feel like selena; the president of my fan club trying to
kill me

And you'se a bad ass?

Let's take a linda trip file since you wanted to play the
game filthy

Bad enough that you lied about me; front like this isn't

your voice
I'll be force to release the microcassette in it's entirety

Sole: "i mean, fuckin len knows, I mean.. y'know I like
your shit
You know it's not really like that y'know"

El-p: "i don't know that you like my shit
I haven't even heard your record
I have no idea what you think about me"

Sole: "i-i-i-i love company flow--i love company flow
I don't wanna be against you guys--i don't wanna be
against you guys
I wanna be down--i-i-i-i-i wanna be down--i-i-i-i-i wanna
be down

:: "i love company flow" -- sole's voice stretched and
echoed
So it sounds like he's sputtering and stuttering:::

This is one of those precious moments of ferocious
paybacks
Closest to the perfect scenario you made a move but it
backfired
Magnified by the fact that you tried to project a
persona
Of confrontation by subverting a crew who in fact you
idolized
Next time your delusions of groupie lust and battle
fame
Isolated website hip-hop coast tiger beat subscription
addiction
Malignancy career impotency lies high school gossip
power move
Will simply get you beat the fuck up, liar!!
Spell my God damn name right next time pussy
Feel the beauty of futulity served with arsenic cookies
And old lace, you tried to save facial; yo fuck that I fold
space
You musta thought you was canibus trying to eat my
ass
How does the hole taste timmy?
You don't even deserve this moment--do you?
You haven't paid enough dues to get a battle--pupil!!
Run along and do your little interviews with your
fantasy life distortion
Next time you reveal your true self make sure that no
one records it
You stupid!!

Sole: "to be totally honest with you--i think your being cool, y'know
Like; I mean, taking in consideration everything-- y'know"

El-p: "yaknahmsayin my plan was especially to ignore you, but like,
Now it's gettin very difficult to do that because you're makin too..
You're makin too big a deal, out of what you perceive as a diss to you;
When in reality like, I don't think your completely Positive that your totally correct on this one"

Sole: "uh, I don't feel very correct right now; at this point
That's why I don't really have anything to say because it's like
Well fuck, you know I made I made my el-p diss record already y'know? "

::scratching:::
Damn that's a sucka---faggot----
Get played, out of position
---true feelings---
M-m-murder a rookie----
Suck the dick kid and eat the dick cookie----
E-e-e-at the dick cookie
