Red ribbon rainbow

A garland of gold for your hair

Wherever you go

I see faith crush despair

In chaos find courage

The answer to my prayer

Lipstick... liner... perfume... soap

Won't scrub this city or give it hope

You're the antidote... you're an...

Ark-angel

Do you dream about me too

Ark-angel

When I dream I dream of you

Ark-angel

But could I change this world for you

Ark-angel

You do... you do

Whisper it softly

Or scream your name out loud

God built an angel

In sun and sky and cloud

Then heaven sent vengeance  
To a world that once stood proud  
Lipstick... liner... perfume... soap  
Won't scrub this city or give it hope  
You're the antidote... you're an...  
Ark-angel  
Do you dream about me too  
Ark-angel  
When I dream I dream of you  
Ark-angel  
But could I change this world for you  
Ark-angel  
You do... you do... you do  
Icarus rising - flies to close to the sun  
Icarus falling - a moral for everyone  
You're the only one... you're an...  
Ark-angel  
Do you dream about me too  
Ark-angel  
When I dream I dream of you  
Ark-angel  
But could I change this world for you  
Ark-angel  
Then fly... then fly... fly...
