There's so much panic in this world

But we are living in the best

Of all possible worlds

Fear of the world

No fear, no fear of the world

Deep inside of me

Well I got this wanderlust

Remember how we talked last night?

Well it's just as we discussed

Ashes turn to ashes

Cash turns to dust

There's no-one in this world right now

You think you can trust

No real bruises I can show

Travelling the world on the radio

No real scars I can display

Burning up tomorrow into yesterday

Fear of the world

No fear, no fear of the world

Deep inside of me

In the seat of my pants

There's a pain as big and hard
As a civil disturbance
Conquer all your fears
Seize every chance
In the end make fear your friend
And change your circumstance
No real bruises I can show
Travelling the world on the radio
No real scars I can display
Burning up tomorrow into yesterday
Fear of the world
No fear, no fear of the world
Fear of the world
No fear, no fear of the world
