Here comes god, here comes me
Ones too shy of making it three
And I can't see
So blind i'll be
Here comes god, here comes me
This will go down but no history
Down in the mind where the soul shall see
This boys been torn but it's the man you see
Here comes god
Here comes me
Here comes me
Here comes god, there goes me
Ones too shy of making it three
And i can't see
So blind i'll be
Here comes god, here comes me
Here comes me
Here comes me
Chorus
I'm not sleepin
Don't try to wake me up
I'm just dreamin
Don't try to wake me up
Here comes god, is he mad at me?
Number three was killed by me
I can't see
So blind I'll be
Here comes god
Goes me
Here comes me
Here comes me
Chorus
Here he comes
Here he comes
Here he comes
I'm still awake
I'm still awake
I'm still awake
I'm still awake
