Abby 6, she's the beast
From the East,
Good grief, it's a three piece
Sit back relax
People don't dance,
Step to the side
I've got a super, simple groove
Make ya feel alive
I've got one reason
Two reasons why
My boogady Bam, Bam
Don't lie
I want it, I need it,
Sit back and relax
And watch the big man move
Tick tick boom
There goes the room,
My egos to those that
Don't assume that I've got
A problem: many, many of
Them who can't dance to
The mega boogie groove?
I want it, I need it,
Sit back and relax
And watch the big man move
Chorus
Mega Boogie, Mega Boogie...etc
Touch one of your people
I am one of your people
Chorus
Mega aha
She won't bore ya
Mega Boogie
