Were getting dressed up for a good time
Got your ticket? Well I got mine
Grab your girl and let's ditch this place
It's time to leave the human race
Guys and ghouls will gather round
Smell-o-rama and stereo sound
Raise the curtain just pull the cord
Get lost in the Graveyard Boulevard

Damn it Janet what's wrong?
Monster movies playing all night long
Damn it Janet LET'S GO to the
Midnight Creature Feature Picture Show

Dead come alive on the silver screen
A psycho slips into your dreams
Carnivores feast on their meat
Just like candy & trick or treat
Psycho slasher is about to start
He'll carve his way into your heart
Alien invaders from outer space
Monsters on the loose in any case

Night stalking killer is a basket case
Disappears without a trace
He's got a way of making girls drool
He ties them up until there skin turns blue
Rotting zombies and slimy slugs
Giant spiders and atomic bugs
Well the end is a mystery
This is the place that I want to be
