"I think it's time we turn and face the music
I think it's time we went our separate ways
But first we'll ride (one last time) across the country
Just to find our final resting place"

"I think it's time we stepped down from the gallows
I think you were wrong when you lead us both astray
And we should stay on the path straight and narrow
I always thought we were better off this way"

"If you want me then fight for me baby
Don't let it come apart at the seams
And though we lie in different beds, in different places
In our minds we were dreaming the same dreams"
Don't give me those
Well known weary eyes
Coming around time after time
Don't give me those
Same old tired lines
I've heard before night after night

"I think it's time I came in from the weather
I think it's time I gained some new repose
Just let me lie here now and don't you bother
Just let me lie here now and let it go"
