If there ever is any trouble  
Gonna wanna be there for baby  
When a fighter fights, he's in there  
I am the four letters of failure  
You never were the acceptance  
Fair is the condition I'm in  
This call is not to make you feel sorrow  
I can always take it back baby  
If you ever want me to I will  
There is a hole at the bottom  
I can always say it got crazy  
If you ever want me to I will  
Hands wanna get it off of the pillow  
Knees wrap around the still darkness  
When I have an answer, know I will  
Calls in the other room say you love me  
I can always see it's so baby  
If you ever want me to I will
