

## Confession Of Faith "Like Judas"

By your purity rise us all and from your sickening love I  
fall  
I pray for love but from love I fall  
Weep my child in this sickened delight  
And pray salvation to my endless night  
For over life I chose this power  
For the taste of love had turned sour  
You have turned away from me your head  
And left me drowning in the tears I she'd  
Like a dying child to you I clung  
Wanting someone I had hung  
I'm so diseased I'm so diseased  
Will you still love me  
With a kiss like Judas I betray  
My salvation consumed in decay  
I know I was so sickening  
I know love I will yearn  
As I fell from grace  
You did turn  
You have watched me slowly as I bled  
My sickening love from your withered bed  
And all I love does seem to die  
So here alone I do cry  
Please dear god my eyelids close  
I gave my love a blackened rose  
She took this flower and turned so old  
Love to me is so cold  
So weep my child is this sickened delight  
And pray salvation to my endless night  
For over life I chose this power  
For the taste of love had turned sour
