Crucified against my wall
Here we go...
HAHAHA You disgusting whore

Slowly, accurate - my knife enters your flesh
Blood is flowing - bones seeking daylight
Your lips are gone - the skin is removed
Your last stinking breath in my face

Slowly inch per inch - I'm carving from your throat till
your pussy

Once I'll arrive - your most desired part will be
separated
Carving, snatching - the whole gets bigger
Legs are gone - everything is falling on the floor
A half empty body is all what remains

HAHAHA... here we go ... stupid bitch
