

## Confessor "Suffer"

the unholy oppress the harmony  
of the eternal blessedness  
trough the rejection of the prophets  
lend to trust transparency  
the invincible one deludes reality  
by the missionaries of sin  
who evict virtue for fame  
judgement of the marionettes  
is decided on the goodness  
determind by the divine

is your eternal suffering  
suffer  
suppress the righteous truth  
impractical reasoning  
blinds all those engulfed  
in this prevariance  
doleful dogma doubted by doom  
jesters join with jaundice  
progenitors profile the path  
for flustered fools to figure  
suffer
