"Mighty & Superior"

Mighty & superior we're the rulers you're the ruled.
We say the grass is greener on the other side, but you
can't see that of course
We represent the nation it's our people we put first
We even bail out third world countries, it's OUR
Investment they DESERVE IT
Simply forcing the back the Russians with peace
missiles built for trust
Screwing with the Yankees - Law and Order Is our must
Sick and fucking tired of their collaborations
Forwarding the clock to our extermination
Get a one-way seat to destruction
Their choice - our must - to rise with the mushroom
Hail to the mushroom - the total combustion. The
realization of annihilation
Poseidon's answer, the Trident blunders, Your choice -
our must - to die
But you're wrong. Mighty and invincible as they boil the
seas for power
Recruiting armies on the land to protect the state that
cowers
From the Russkies - from the dollar. One's Investment,
One, our enemy
These people why can't they love. Human feelings, don't
they matter?
Much rather they would rule, building castles and
tycoons
A crust out to the third world, sending rockets to the
moon
Making missiles, tanks and bombs, nuclear power for
our homos
Raising hell up from the mines, to the last humans
sacrifice...
Well, if you think all's well and strong
There's a movement that's uprising, If you think we can
take that
You've got one hell of a shock coming
You might just have pushed too far - you're superior to
nothing
The UNGOVERNABLE force Is gonna drag you out of
hiding

You think you've got us beaten. You make one slip and
you'll know it
We're watching every move you make, as you are us! -
FORGET IT
For once we take an inch you just watch us take the
mile
Your servants have turned their backs on you, now the
world starts to smile!!!
Mighty and superior you are the rulers, we're the ruled
You said the grass was greener on the other side, but
we couldn't see! of course
You represent your people, It's your own kind you put
first
You bail out third world countries, YOUR Investment to
preserve
Forcing back the Russians with peace missiles built for
???
