Just when I thought you had left me for dead,  
You show up and save me again.  
Piecing things together like only you can do.  
And when I thought I was alone till the end,  
You're right there and you assure me again.  
You piece things together like only you can do.

I've waited too long to say...

I can try to make this work.  
I'll try my best this time  
And even though you've heard it all before,  
It's not that easy.  
I can try to make this work.  
I'll try my best this time  
And even though you've heard it all before,  
It's not that easy.

I can see clear.  
Now I realize that it's all in my head.  
I think you're gone but I'm gone instead.  
Do I remember the way that I should be?  
So when I'm missing what I need the most,  
I'm feeling lost and I think it shows  
That I don't remember the way that I should be.

I've waited too long to say...

I can try to make this work.  
I'll try my best this time  
And even though you've heard it all before,  
It's not that easy.  
I can try to make this work.  
I'll try my best this time  
And even though you've heard it all before,  
It's not that easy.

(Can we try one more time?)  
I need to feel you close to me.  
You're someone I'll always long to be.  
I'm lost but something's clear to me,

You're as close as I will let you be.  
(One more time)  
I need to feel you close to me.  
You're someone I'll always long to be.  
I'm lost but something's clear to me,  
You're as close as I will let you be.

I can't believe this is what you have for me.  
I can't do this on my own.
