I fall for years  
I've even cried a river of tears along the way  
Now I know that there's no one there  
Is anyone left that cares?  
If we live or die, love is alive

My hearts turned black  
Hanging on to the edge of tomorrow  
Felling like I'll be derailed  
Like scars on the edge of tomorrow  
You'll know my life my friend

I'll drink away the pain  
It's official now what they say  
I'm on my own  
Now I know that there's no one there  
Is there anyone left that cares?  
If we live or die, love is alive

My heart's turned black  
Can you you tell me what it's like to feel? (like to feel)  
I can tell ya how it feel to fail (feel to fail)  
Do you think I care about tomorrow?  
Well I wont feel bad if the next day never comes

Hanging on to the edge of tomorrow  
Felling like I'll be derailed  
Like scars on the edge of tomorrow  
You'll know my life my friend

Hanging on to the edge of tomorrow  
Felling like I'll be derailed  
Like scars on the edge of tomorrow  
You'll know my life my friend
