Years ago we were on our own
And we came together on a dead end road
Not knowing then what we be now
Time rolled by there were some times
When you laughed or when I cried
Looking down that road, where did we go?

In a city of love
My we really had some fun
Thanks to our time on Greymere Road

Did you think you'd see this way?
And that we just can't get up past
From a memory from that time gone by
Every day I live with pain
With all my strength can't break these chains
Really hate that street and what it means

In a city of love
My we really had some fun
Thanks to our time on Greymere Road
Older and numb
I'm all out of love
Thanks to our time on Greymere Road

All those times I've pushed aside
But those days just wont escape from my (from my
mind)
Yea!

In a city of love
My we really had some fun
Thanks to our time on Greymere Road
Older and numb
I'm all out of love
Thanks to our time on Greymere Road
