Aghast of the neglection  
Contempt of the older generation  
Righteousness is never maintained  
Leaving us with the shit of million years to come

Systematic annihilation  
Hostile forged hate  
The spilling of the earth  
Most of the guilty ones left us  
Conform me by destroying all reality

Detracting about other races  
Do you think that's what faith does?  
I don't even wanna listen to your shit  
Everything I've already heard  
Blurs my vision of a pure mind  
Blood has floated  
Leave it all to the common thinking people

And don't try to harass me  
I abducted faith  
I won't listen to your shit  
Your story is just an apology  
Don't invite me to your feast  
'Cause that's disgraceful waste  
Don't make amends to me  
You potential murderers

Faith doesn't stand for racism  
But faith always makes war  
Dominion fails
