Hook:

Looka here, baby
Don't you overreact!
Looka here, baby
Of course he's gonna say that,
Cause all the guys she's been with
None of them try to help.
They see the life that you live
And want it for themselves.

Don't pay the hoe, no, never mind
She a about a bitter ass lemon lime
And one of you skip the end of the line
Cause I got more juice than clementines.
Yeah, it's true, she a friend of mine
But I use the term "friend", baby loosely
The ...her man and that Cucci
And I finally got a belt from Gucci
Is she the third world like a Roccie
But we never kick it like Bruce Lee
And you know I got a black belt
So one could imagine how that felt
But, but rest ashore
All she trying to do is test your jaws
So I'll say to assume every dress you wore
Made it feeling way more obsessing more.

Hook: (x2)

Looka here, baby
Don't you overreact!
Looka here, baby
Of course he's gonna say that,
Cause all the guys she's been with
None of them try to help.
They see the life that you live
And want it for themselves.

Now who is she to ever take your temperature?
Don't you know who be laying in bed with you?
Don't she know who be in the Benz with you?
That she ever gonna sense you
Tell her it ain't about hot and cold

Until you get the truck to globe
You gotta prove that you got the gloom
Until then chew it all high and cold!
Talking at the side of your mouth
I see why Joe had to do what he did on the side of the
house
No, I ain't the guy you can try to out
When I ain't never did was slide you out
Before I sign out for being caught out... my girl out!
You wish you believed ain't played
In front of my dog house to make you ball out!

Looka here, baby!
How she's gonna talk to you about her ring?
When she ain't even gonna make the play...
As a matter of fact, only time she gonna walk down the
isle
Is the when a stink ass gonna get some popcorn at the
movies
You know me better than everybody else
If I'd try to get at her
I would have to buy some
Only bye she got was goodbye,
And I heard it might be bisexual!
