[Hook:]

You slipped me ecstasy, I don't even know who's laying
next to me

You slipped me ecstasy, I don't even know who's laying
next to me

You slipped me ecstasy, I don't even know who's laying
next to me

But I do know you keep texting me
I'll be out the door fast as extra pete

I can't put my drink down for a second
Without you tryina put me down on a second
More get your co sign, just so you can have more shine
Well put your thing my shoes like floor shine
And you will seek or leave record off phone time
It's the moer of a clime, you want my turn to fizzle
Just to see it if I'm gonna make it drizzle
With the hope that I may feel ooze
So lay the arm when you accuse me
I feel so guilt, when instead of staying [?]
I end up trickin
And that dumb shit should get you to kobe stair
Instead of wrong way, piece of that neyomi wears
Yeah, and when I finally come through
I make me just sit down, I'm reppin 1-2
Cause that's my world

[Hook:]

You slipped me ecstasy, I don't even know who's laying
next to me

You slipped me ecstasy, I don't even know who's laying
next to me

You slipped me ecstasy, I don't even know who's laying
next to me

But I do know you keep texting me
I'll be out the door fast as extra pete

Nbdma is one heluva drug
But so other fat ass from the hoe I'm on
Till they can become, rather awkward
To have a [?] brought to your appartment

Who left one stains on your carpet
And may have one [?] talking
To every press outlay, and let you spend your checks at
the outlets
Well girl you're rollin on the pole and
Anyow you think my wallet it get stolen
Oh I forget the trojans
After one sip of your potion
Let's get one thing straight
Matter fact, I'll make you a deal
I'll pick up the tap, off our first date meal
Then put you in the cab and let you know how I feel
But if I call tomorrow and you yalkin bout your bills
Then I know you tryina slip me a deathray pill

[Hook:]

You slipped me ecstasy, I don't even know who's laying
next to me
You slipped me ecstasy, I don't even know who's laying
next to me
You slipped me ecstasy, I don't even know who's laying
next to me
But I do know you keep texting me
I'll be out the door fast as extra pete

And I don't think that I could take it anymore
And I don't think that I could take it anymore
And I don't think that I could take it anymore
And I don't think that I could take it anymore
And I don't think that I could take it anymore

[Hook:]

You slipped me ecstasy, I don't even know who's laying
next to me
You slipped me ecstasy, I don't even know who's laying
next to me
You slipped me ecstasy, I don't even know who's laying
next to me
But I do know you keep texting me
I'll be out the door fast as extra pete.
