Let's go back, to the scene of the crime
When I used to play the coroner with 3 of my slimes
It's around when John Cena would rhyme
I come for a see how I be in my prom
It seems like my hand got dealt 3 of a kind
Could 5 there got me swiping 3 at a time
So this is just a meeting of the minds
I meet it, I beat it, she screaming, he minds
And that's fine, I understand the hoes' hunger
As long as she knows I'm the only stunner
Cause this the time of day we done had the more
recovered
So put a sock in it like fuck we brother
And suffer what they call the consequence
I got a strangle hold on this contrar shit
And when you add that to the constant hits
That means I'm on top of my bread like a condiment
So when it's time to war, I don't call condolizza
I call the billing department of visa
And ask them they extend my limit
Mister... we be glad to do it
For Joe Francis, or Francis Louis
Who put piv sims and dances to it
Just so we can put regim mac at the truest
So I be absent the truing

When you can hear the deposition,
That will get new definition
Of what death jamming, any other label system
Ain't now should look for, when they take a listen
I feel like a prisoner who wrote a letter
You can hear the conviction, cause there's no one
better
So just like a prisoner who open letters
I'm hoping to see a bad bitch who won't forget us
They wanna quit us, they wanna clip is
We all the Lakers, so what I got parked...
And it came with a laser
So them streets are playing laser tag
They pulling out pistols and they breaking bad
Got my name in high water like they making crabs
So you might just make a spaz,

No spasms, you may find magnums
And your wife dressed right after we Â...
ThatÂ's what are friends forÂ...2 hours level for the
cheese bust cons
And the kids on dress, and she could take her best
shot to earn our reject
And not take a best shot to earn our respect
But more than likely, IÂ'ma do a greezy
Believe me, I shine, like a diamond and they see me
So in sure like a ep, and the words of aaron right
Baby itÂ's too easy, itÂ's way too easy
This is too easy, itÂ's way too easy
