A man must be strong, to live long  
Shake the negative vibe, trying to stay alive  
But I never said it would be easy  
Living in a system that you can't win  
But by the time you know and slow  
Folks hardly want to say hello  
But since we've got our pride we'll survive  
We believe in the black beauty

Shake the negative vibe trying to stay alive  
Wherever you go please remember  
If you can't be good be careful be joyful  
Oh we've come a long way and still here  
Been through all the stress  
And all the stress and fears  
But since we've got our pride  
We'll survive we believe in the black beauty

Shake the negative vibe trying to stay alive  
Wherever you go please remember  
That Jah is on your side trying to stay alive  
Cause by the time you go and slow  
The system didn't wanna see you wanna see you  
Wanna see you no more but since we got our pride  
We believe in the black beauty

Shake the negative vibe trying to stay alive  
My brother move on  
And stand firm in your struggle  
Jumping all the hurdle shed your burden  
I might say it's easier said than done  
Oh but our race is a hard race to run  
But if you got your pride you'll survive  
If you believe in your black beauty
