Ooh Let me be the first to say how good you look
Tonight, I sure hope that day break will be, no where
Close in sight, cause I wanna hold you, and touch you
For a long, long, long time....
Ooh when you said you'd meet me, thought it was just
A game, never thought that you would even remember
My name, oh I wanna hold you, and touch you for a
long, long,
Long time.
Now I have one regret, I'd never met you before
(I should have known you a long, long time)
Its not too late, things can be great, you and me
Ooh baby baby...
(comma comma comma little reginald, can can can
Can I take you home...baby...ooh baby)
Now I have one regret, I'd never met you before,
(I should have known you a long, long time)
Glad it's not too late, things can be great you and me
Ooh baby baby
Here my heart says yes,
So I know I'm blest with you baby
Baby,
Glad it's not too late
Things can be great,
You and me baby baby....
Still it's not too late
Things can be great
You and me...ooh baby
Baby baby....
Glad it's not to late....to fade
