Today's been nothing short of magic
Everything about today is magic Yeah

Like a breath of fresh air
I'll watch you standing there
Thanks for the time
Picture frozen in my mind
Life's been a thorn in my side
Forces me to incline
Out of myself mission aside

I'll have to see you again
Somewhere down the road
Let me see you again
Before I explode
I'll spend all of my time
I'll search until I find
If I have to hunt you down
(Hunt you down) Hunt you in the ground
Hey hey

Now as a broken man
Who never really had a plan
Don't have to prove to no one, Hey
And there as it goes
My purple rose
All my thoughts exposed
Case closed, Yeah

I'll have to see you again
Somewhere down the road
Let me see you again
Before I explode
I'll spend all of my time
I'll search until I find
If I have to hunt you down
(Hunt you down) Hunt you in the ground Yea

Woah yes,
Everything is magic, yes
Magic yeah
Now, come out of my dreams

And into my world
Hey honey, come sire this soul
Wherever you are
Reveal yourself
And understand, if I don't have you
There's nothing left

I'll have to see you again
Somewhere down the road
I'll have see you again
Before I explode
I'll spend all of my time
And I'll search until I find
If I have to hunt you down hunt you, hunt you
(Hunt you down) Hunt you in the ground

Like a breath of fresh air
I watch you standing there
Thanks for the time
Picture frozen in my mind
Life's been a thorn in my side
Forces me to incline
Out of myself, mission aside

I'll have to see you again
Somewhere down the road
Let me see you again
Before I explode
I've spent all of my time
Search until I find
If I have to hunt you down
(Hunt you down) Hunt you in the ground

I'll have to see you again
Somewhere down the road
