Right between your legs  
I see the blood spilling  
Rotting immaculate  
Right into your eyes  
I See your hatred  
Running red to them

Fear is what shuts you up  
Your carefree life is disturbed  
By the explosion of a ripe fruit  
Parental interference is the case  
Of your ignorance  
Whilst shame doesn't help you anymore

That you and more will be the lesson  
For authoritative parent  
To see their faults  
And think more clear  
Before breeding  
Before they know it  
Their will causes death

Immaculation  
Beautyfilth

So your daddy forbid you  
To ask about dirty things  
Your advice from friends  
To use a plug?  
It got stuck and rotting  
You're screaming helplessly
