What is this I've been through, started no so long ago  
I was feeling empty until you came along  
I'm better than empty  
I'm better than empty  
I'm better than empty  
I'm better than empty  
Now I've lost my mind and soul like I always do  
Tempted once I was now cured because you came  
along

Hello holiness  
Hello holiness

Wrath  
You have sucked my veins but that's not all, cleared my  
mind and make me crawl  
I bow for thy oh sergeant P. 666 and blasphemy
