Costanza:

Round round

Round round

Costanza & Tricky:

I'm antimatter

I don't matter

Cancer phones

Break my bones

I'm illusion

Sonic solution

Magic mind

Sonic pollution

I just detox

I just see lots

I see nothing

Show me something

We go round and round

We make it safe and sound

I try to break it down

Alright

(2x)

(We go round)

I have visions

Homosapiens

Fast I've grown

I think alone

I'm confusion

Evolution

I'm in man cub

Institution

I move forward

I make awkward

I just jump jump

I just thump thump

We go round and round
We make it safe and sound
I try to break it down
Alright
(2x)

I evolve
Then dissolve
Maintain my laws
'Til April falls

My sea runs red
My trees are dead
My breath runs short
Please report

Is there someone out there
Is there someone out there
Do you receive me
Do you receive me

We go round and round
We make it safe and sound
I try to break it down
Alright
(Repeated)
