"Baby Soldier"

He hides daddy's gun
He put it in the lunch-box
He feels such a real man now
And he ran

It's time
To go to have some fun
And hit another one
I saw it on tv
The soldiers with their gun

It seems to be so fun
While they run
While they run

The beauty and the beast
And the child under the priest
While Superman is fighting for the Democracy

They launch another rocket East
They launch another rocket East

But it's time
To go to have some fun
I saw it on tv
The soldiers with their gun
It seems to be so fun
While they run
While they run
