[Music: Tuthill, Lyrics: Tuthill/Harju/Strid]

Strapped in anger about to break  
I try to keep it in me, but it's too late  
Unleash the fury, release the gain  
I pull the trigger to ease the pain

I was fragile  
Now I am free at last

Now it seems like all is wasted  
Remember who you are  
I've got time to spend  
Release me from this

Can't stop this feeling, I love to hate  
The violence in me will overtake  
You can't control me, you never will  
My darkened soul is set to kill  
Unleash the fury, release the gain  
I pull the trigger to ease the pain

I was fragile  
Now I am free at last

Now it seems like all is wasted  
Remember who you are  
I've got time to spend  
Release me from this bitter end, my friend  
And it hurts though I am shameless  
Remember who you are  
Dividing pain and guilt, it isn't worth it  
I'm heading towards the end
