Words and looks can deceive,  
I shut my eyes and I still can't believe your empty  
promises.  
I've heard them all before. I've heard them, whore,  
so shut your fucking mouth and listen now.  
Come and watch me burn now, come and hear me  
scream  
Words of futile pleading down on bleeding knees.  
If you could look straight into my head you'd see that  
all my thoughts are colored red  
With frustration and lack of faith, so once again I turn  
to my hate.  
Come and burn my weakness and my empathy,  
Instead of wallowing in the remains of shattered  
dreams.  
[Chorus]  
My undying hate as sharp as razorblades, so let me  
desecrate you "virgin lamb".  
In my burning fury I am judge and jury; mother Mary  
since long both dead and buried

I rise from the ashes of a charred soul, intoxicated with  
my own perversions.  
Die covered in mud, face down in blood, I'll sign my  
name with razorblades.  
Lidless and blind, crippled and petrified you'll beg of  
me to let you die.  
Here comes the pain bitch, it's your time to bleed  
'cause I've got no forgiveness of mercy left in me.

[Chorus]
