Touch the leprous for prosperity, stare into the  
cyclone's eye.  
Breathe the vapours for divinity; just take my hand and  
follow the blind  
And dance with the devil beneath a concrete sky.  
Smile a black tooth grin and play again for the sake of  
life.  
There's still life on the dark side when you can't stand  
the light  
There are pleasures unimaginable here on the other  
side.  
Come dance with me... come decompose.  
There's so much to see, I've got so much to show

[Chorus]

I repent now for the sins of generations. I repent now.  
I repent now with a soul stained by damnation; I repent  
now.  
"How can anyone bear doing that?" such a popular  
phrase,  
but the truth lies in my nature; I was born to...

I need something larger than life, something that feels  
real.  
Corpse, horses fucking whores; I need something to  
feel.  
In the eyes of the storm my body's tied with plastic  
chains,

My eyes sown open; this psychic train leads so far  
away.  
The city night's alive with not quite human cries.  
I'm the fiddler, sing along and dance until the end of  
time.  
Too many ecstasies; my pores are breathing blood.  
Can you feel the lie in me, smiling hate, laughing  
death?

[Chorus]

...I was born to hate, lie deceive, kill, rape, destroy.  
Sweet white flesh, eagle spread on a velvet bed.

I don't mind paying, hell, everybody pays, everybody  
sells.

I know what you are condemning me while you nurture  
your own depravity in darkness.

So much revealed, so much unconcealed;  
"hidden" in transparency for everyone to see

[Chorus]

Such a popular phrase,  
at the same time everybody sins in their own way,  
so I repent on bleeding knees with gritted teeth. I  
fucking repent.
