

Contagion "Aggress"

Visit "[Aggress](#)" on MotoLyrics.com

Destroy emotions (and they)
Employ devotions (and they)
Can't seem to take it away
It's just bureaucracy
Just like hypocrisy
And it's always the same
Chorus:
Fuck you! Fuck you! Fuck you!
Fuck you! Fuck you! Fuck you!
Conditions and restrictions
Religions and revisions
It never goes away
Controlled emissions (and they)

Control decisions (and they)
Can't seem to find a way
Chorus repeat
Feeding equality
Breeding brutality
There's supposed to be a better way
Deter incrimination
Infer discrimination
Destroy the system that we've made
Chorus repeat
[The chorus is rather childish, really...]
